15th July 2019

Dear Chris,

The Parish Council wishes to write to voice support for your bid for funding for the Monumental Improvement Project to protect and stabilise scheduled monuments from being 'at risk'. Without this project the scheduled monuments that have been identified are at risk of being lost forever, and with this project they can be preserved for future generations, which the Council believes is important to do. Further to the proposed sites included in the funding bid, the Council have identified other monuments in the Parish which it considers important to improve and conserve as and when funding becomes available, and which could benefit from recognition and potential management partnerships. These include, for example, St Ruan's Well, and Polstangey Bridge (a listed structure).

The Parish Council would also like to offer support with the Project in terms of promoting events (by networking with local contacts) and looks forward to working together with a view to preserving these treasured heritage assets.

Yours sincerely

Lee Dunkley, Parish Clerk
