Dear Sirs

Proforma Invoice - RRMC Customised Outdoor High Impact Polycarbonate UnLocked Turn Handle Cabinet with low energy thermostatically controlled heating x 2

Description

The RRMC customised outdoor rigorous polycarbonate unlocked cabinet with heating is sure to keep your AED ready available and to use at a moment's notice.

Thanks to the bold chain of survival on the front of the cabinet, the first responder is sure to feel assisted and confident during the delivery of treatment.

- Fully corrosion resistant in UV stabilised high impact polycarbonate, the same material used in Police riot shields. The UV resistance protects against the harmful effects of the sun. They are also rated to UL94V0 which means they will not support a fire and are self-extinguishing, do not give off toxic fumes.
- Toughened hard plastic durable handle
- Land Rover drive over tested
- Double skin clamshell design provides additional insulation in cold weathers
- Resuscitation Council Chain of Survival Guidelines signage
- Address and postcode clearly displayed on front of cabinet
- Large viewing window to easily check status of AED
- Internal LED magnetic light that activates in darkness on a motion sensor and can be used as a removable torch
- Optional 3 pin plug or hardwire installation
- All fixings and comprehensive installation instructions are supplied with every cabinet
- Internal hinges that do not allow for external tampering
- IP66 rating, sealed against high pressure water hoses and dust
- Thermostatically designed heating system, ensuring your defibrillator is kept at an optimum working temperature
- Universal for all AEDs
- Suitable for coastal or roadside area
- Cabinet dimensions 465x435x240mm
- **10 year casing warranty**
- **5 years parts warranty**
